### PLOT THWARTED.

Young Woman Arrested and Found With Bomb on Person Intended for Emperor.

Intended for Emperor.

(By Associated Press.)

BRESLAU, PRUSSIA, May 18.—The St. Petersburg correspondent of the Breslau Zeitung reports that the authorities detected and thwarted a plot to attack the Emperor with a bomb during the spring parade in St. Petersburg, May 10th. The Emperor always reviews the parade on horseback, taking a position before and slightly to one side of the pavillon from which the Empress and the Grand Duchesses view the pageant.

Just before the Emperor arrived on the parade ground May 10th, it was notived that Miss Merezhevsky, daughter of a leading Russian Psychiatrist, and Privy Counsellor Professer Merezhevsky, who occupied one of the loges nearest the payillom, was nervous and excited, Risking a scandal should their suspicions prove to be unfounded, the authorities ordered her arrest, which was effected unobtrusively. A search disclosed a skilfully constructed homb concealed in herelothing. The girl did not deny her intention of hurling the missile at the Emperor, but refused to give any other information.

formation.

Miss Merezhevsky has been attending the Women's University. It is rumored that she has been hanged and her aged father is completely prostrated.

### KUROPATKIN TO FALL BACK.

Russian General Will Withdraw From Liao Yang and Retire to Mukden.

tire to Mukden.

(By Associated Press.)

ST. PETERSBURG, May IS-6:30 P.M.—
Confirming the intimations that it is
General Kuropatkin's purpose to aveid

& decisive combat with the Japanese at
the present stage of the war, the statement was made by the general staff today that the commander-in-chief is making preparation to fall back on Mukden
and then on Harbin.

While the superior numbers of the
memy compel a retirement, it does not
follow that General Kuropatkin will not
strike a stinging blow should a strategical mistake be made which will enable
him to throw a stronger army upon one
of the advancing columns of his antagonist. The most exposed portion of General Kuroki's command is that which
mevod difectly northward, evidently with
the intention of gaining the road to Mukden, down which it will march as soon
as the other columns are within supporting distance. Unless caution, heretofore
the conspicuous feature of the Japanese
campaign, is observed, this column, it
is believed here, will fall the victim of
its temerity, as General Kuropatkin is
known to be holding it especially under
close surveillance.

Kuronatkin's decision to withdraw from

its temerity, as General Kuropatkin is known to be holding it especially under close surveillance.

Kuropatkin's decision to withdraw from Liao-Yang can only mean, according to the experts, that there will continue to be infairs of outposts unless another General Zassalitch should develop.

The controlling strategic point at Halcheng will not be held, as believed. Kuropatkin deciding it to be unwise to isolate more troops, who would, not being as well supplied as those at Port Arthur, find it difficult to subsist until further relief arrived. This is one of the reasons that dictates the withdrawal of the Russians from New Chwang, official details of which have not yet been made public. The experts say that the debarkation of Japanese at New Chwang at this time would be nothing more or less than a strategical blunder, advantageous to the Russians, as they are still holding the railroad, and could rush a force there, fall on the Japanese and retire before a column sent by General Virgit could get between them and Japanese. tire before a column sent by General Kuroki could get between them and Liao Yang. The opinion therefore prevails that the Japanese will not occupy New Chwang until Kurokl's columns arrive at Hai-Cheng, or its immediate vicinity. The general staff confirms the an-

Chon by the Russians after the dis-mantling of the forts and the removal of the guns to Port Arthur.

### AERIEL WARFARE.

Probable That Japanese Will Use Balloons at Port Arthur to Drop Shells on Fortress.

(By Associated Press.)

ST. PETERSBURG. May 18-3:20 P. M.— The admitalty reacted p-day an official dispatch from Roer-Admiral Wiltsoett, believed to have been dated from Port Arthur May 14th, reporting that there-has been no fighting afloat since the tele-graph line was cut, the Japanese ships not having attacked. Everything was well with the Russian

Everything was well with the Russian squadren. The dispatch was gratifying to the authorities not only for the news it contained, but because its received. it contained, but because its receipt es-tablished the fact that while the tele-graph line is severed, a system of com-munication by means of Chinese runners has been satisfactorily inaugurated. One of the reasons for the desperate

One of the reasons for the desperate effort of the Russians to get to Port Arthur what is officially called an "ammunition train" has been revealed by information which leaked out to-day. There was little need, it appears, for more ammunition, great quantities being stored in the fort, but General Stoessel was exceedingly anxious to be provided with balloons. Before the war Russian authorities loaded on a vessel a complete halloon equipment for Manchuria, but it was captured by the Japanese, who will use it perhaps in their operations against Port Arthur.

"If the Japanese try to drift balloons

road, three hundred at Pltsewo and six hundred in front of the landing place. Immediately detachments were sent to Pltsewo to destroy the telegraph line, and to Pulandien and destroy the railroad. "On May 6th a detachment of our men dispersed small detachments of the enemy from the eminence south of Pulandien and from the railroad station to the southwest. Simultaneously the engineers destroyed the bridge and the telegraph line. The enemy who were dispersed had three hundred infantry and one hundred cayalry. Our loss was one killed and four men wounded. Two hundred of the enemy's cavairy posted at Pltsewo retired and without resistance we cut the wire and captured the instruments.

"On May 7th we sent a detachment to destroy the railroad and telegraph wire between Pulandien and Sanchilipu. This detachment dispersed the enemy's cavairy, one hundred strong, and cut the railroad and the wires to the northeast of Sanchilipu in two places. One lieutenant and three men were killed and nine men wounded.

"On May 16th we took possession of a

# BALFOUR IS VICTORIOUS

Premier Successfully Defeats Plan to Upset Government Upon Fiscal Question.

CHAMBERLAIN CONCURS

Question Is Brought Up on the Motion of Alexander Black, of Scotland.

(By Associated Press.) LONDON, May 18.—By a majority of fifty-five, Premier Balfour to-night successfully defeated an attempt to upset the government upon the fiscal question. An the Premier's reiterated determination to shelve the question of fiscal reform until

The motion upon which the question came was made by Alexander William Black, member from Banffshire, Scot-land, and an advanced Liberal, welcoming the ministerial declarations that

land, and an advanced Liperal, welcoming the ministerial declarations that "Protective taxation of food would be burdensome to the people and injurious to the empire."

In purpose the motion was intended to censure Mr. Chamberlain, and the latter's amendment to it would have split up the Unionist, party and possibly would have resulted in the defeat of the government. Mr. Balfour's own amendment to shelve the question left a middle course open to the members of the Unionist party, and although this amendment was not put, the house accomplished the defeat of Mr. Black's indirect censure on the ground that it was now necessary to discuss the fiscal question.

The premier stuck to his policy as outlined in his recent sheffield speech.

Twenty-one Unionist Freetraders voted against the government, but more than double that number would have done so, but for Mr. Balfour's skillful intervention between Mr. Chamberlain and his opponents.

The net results of the debate which crowded the House of Commons to a greater extent than it has been this session is that all parties stand as they were.

Sir Michael Hicks-Beach and his im-

Sir Michael Hicks-Beach and his im Sir Michael Hicks-Beach and his immediate following practically saved the day by refusing to vote with Winston Churchill, Lord George Hamilton, Lord Hugh Ceell and other more ardent Unionist Freetvaders against Mr. Balfour. Mr. Chamberlain reterated that he did not wish to raise the fiscal question in the house. He said he supported the government and would continue to do so. He hoped that the premier would take his own time to carry out his policy. The vote defeating Mr. Black's amendment was 251 to 306.

LOUISVILLE, KY., May 18.—Audience, a filly owned by Captain S. S. Brown, the Pittsburg coal king, won the Kentucky Oaks this afternoon in a terrific drive from Outcome, the favorite, which lasted throughout the home stretch. Audience was a strong second choice at 3 to 2 and was heavily played. It was a grand race, the six fillers racing as a team until they left the back stretch, when Audience, with Helgesen up, began to move up. Booker, on Outcome, also began his ride about the same time, and it was a pretty struggle from the head of the stretch to the wire between these two.

## HE SAYS THAT WE ARE ONLY BLEACHED

Negro Bishop Says Every One Was Black in the Be-

ginning. (By Associated Press.)

Ginning.

(By Associated Press.)

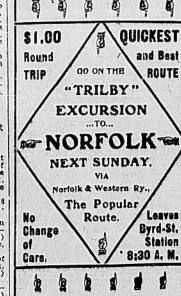

CHICAGO, May 18.—God never made s white man. In the beginning all men were black, but in their wanderings on the earth many of them have become bleached. And in their unnatural pallog many of these bleached men, all of whom were made black at the beginning, now look with contempt and indifference, often with prejudice and hatred upon their hrothers, the negro, who have retained the color that God gave them.

Buch was the declaration of the Rev. H. M. Turner, senior bishop of the African Methodist 'Episcopal Church, in an address in Quinn Chapel before one of the sessions of the cnurch's conferences. The chapel was packed with negroes who are leaders in the religious work of their race, and all applaided vociferously.

"What we negroes need is more education." continued Bishop Turner.

"We need not only the various schoels now under control of the Church, but we need proper instruction imparted. We should write books of our own, poems of our own, scientific treaties of our own, in harmony with our color and our race. And don't learn songs like 'Wash Me and I Shall be Whiter Then Snow,' a song that I would not tolerate sung in my presence.

"I do not want to be misunderstood, though I would say to the credit of the white man—whose race is at the same time the meanest I ever saw, and the hest—that whenever our race tries to raise as a general rule, he will help us."
